

The Blackwell Guide to Research Methods in Bilingualism and Multilingualism

Edited by LI WEI & MELISSA G. MOYER

Birkbeck, University of London; Universitat Autònoma de Barcelona

“Students and more experienced researchers alike will find this volume invaluable in providing exactly what they need. Edited by two experienced and respected practitioners, the Guide focuses on details of method and procedure, as well as outlining major issues in the field and providing useful (and useable) models for research projects.”

Lesley Milroy, University of Michigan and University of Oxford

“This is a highly innovative book - of great value to everybody who wants to do research on bilingualism, in whatever methodological framework. Comprehensive, always to the point, and full of good ideas. If you have a research question about bilingualism, this book will show you how to answer it.”

Peter Auer, University of Freiburg

Written by leading experts in the field, *The Blackwell Guide to Research Methods in Bilingualism and Multilingualism* focuses on the methodology of research in this rapidly growing field.

- Highlights the interdisciplinary nature of research on bilingualism and multilingualism and offers a practical guide to the specific procedures and tools for collecting and analyzing data
- Specifically addresses methodological issues, discussing research topics, core concepts and approaches, and the methods, techniques and tools available
- Provides project ideas and practical advice on conference presentations and publication
- Intended both for the novice and the expert researcher
- The first book of its kind to link theory to method, and to data, answering the market need for a volume on bilingualism and multilingualism that deals with its methodology in a systematic and coherent way.

May 2008 / 424 pages
